Black Bruin MR Rotator

MR rotator is the best choice for heavy professional use, where reliability, high torque and precise operation is required. MR rotators have become true classic for forest machines and truck cranes due to its reliability and suitability for different crane applications.

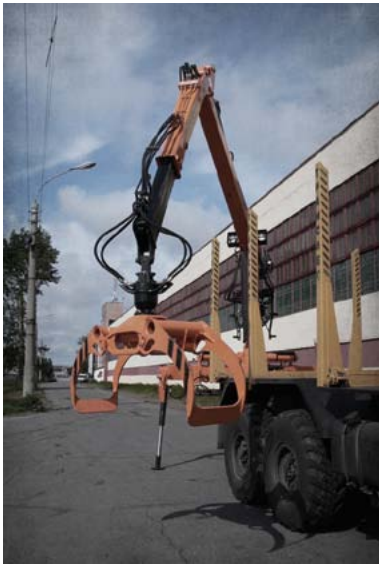

■ Proven in various crane applications.

**Black
Bruin**
No power like it.

Features and benefits

- piston construction produces even torque, durability and precise working
- designed to endure the high external loads
- the double-acting pressure relief valve prevents pressure peaks
- easy fit to any crane equipment
- can be equipped with a swing damper

MODEL	PART NUMBER	APPLICATION	WEIGHT (kg)	MAX. WORKING PRESSURE (bar / MPa)	MAX. TORQUE (Nm)	MAX. AXIAL LOAD (kN)	INLETS	LINK PIN (mm)
MR 8AF	277 020 2305	Grapple	59	250 / 25	2 000	80	R1/2"	35
MR 10F	277 020 2605	Grapple	63	"	"	100	"	45
MR 10MF	277 020 2705	Harvesting head	64	"	"	100	"	45
MR 10FD *	277 020 3605	Grapple	84	"	"	100	"	45
MR 10MD *	277 020 3905	Harvesting head	84	"	"	100	"	45

* With link and brake. Oil supply through shaft in harvesting head models. Two inlets for grab cylinder in grapple models.
